

GTK REACH Statement of Compliance

The UK's REACH Regulation (904/2021) and the European Union's REACH Directive (EC 1907/2006) are designed to regulate the Registration, Evaluation, Authorization and Restriction of Chemical Substances.

EU REACH legislation was finalised in December 2006 and has been in effect since June 2007. UK REACH came into law on 1st January 2021 and replicated EU REACH Regulation with the necessary changes to make it operable in a domestic UK context.

As a manufacturer and importer of products categorised as articles within the above REACH regulations, we review our products with our suppliers and can confirm that our products comply with the regulations and do not require registration.

No articles supplied by GTK release chemicals as defined in the regulations, nor have any of them been found to contain any of restricted Substances of Very High Concern (SVHC), for the applicable legislation, where the concentration is above 0.1%. This statement applies to the ECHA candidate list as amended on 4th February 2026 (253 SVHCs).
